PROFESSIONAL SUMMARY

Adaptable and solution-oriented IT Specialist and Information Systems undergraduate with a solid background in Software Engineering. Proven track record in full-stack web development, custom internal system deployment (including GPS & camera verification features), database administration, and graphic design. Combines technical expertise with practical operational experience in inventory and logistics management.

WORK EXPERIENCE

IT & Design Staff (Internship) — PT Chemitech Logilab Conscientia

Jul 2025 – Dec 2025

- Architected and developed a web-based online attendance system integrated with real-time camera capture and GPS geolocation radius validation for internal staff tracking.
- Managed complete website administration, database migrations, content updates, and e-commerce functional enhancements.
- Designed high-quality corporate branding and marketing materials, including annual calendars, product flyers, brochures, and promotional displays for laboratory equipment.

Freelance Graphic Designer — Self-Employed

Jan 2023 – Present

- Created custom visual assets, catalogs, banners, and promotional flyers tailored to diverse client branding guidelines.

Warehouse & IT Staff — PT Sains Analitika Prima

Jan 2022 – Jan 2023

- Managed full-cycle warehouse logistics for imported lab equipment: inbound inspection, systematic packaging, and outbound customer dispatch.
- Maintained corporate website data hygiene, executing daily CRUD operations for product inventory and database updates.
- Administered company e-commerce platforms across Tokopedia and E-Katalog, boosting product visibility and order processing efficiency.

IT & Administration Intern — IPB University

May 2020 – Jan 2021

- Managed student database verification and batch data input using Microsoft Excel.
- Supported the IT team with graphic design revisions and departmental website content updates.
